Vortex Ecosystem

V-Yield:

Deposit your crypto assets and earn the most optimised interest rate.

Product Features

Borrow

The platform makes it easy to borrow crypto assets using your collateral.

Insured

Get covered against smart contract failure and hedge your risk.

Lend & Earn

Deposit your crypto assets and earn the most optimised interest rate.

Non-Custodial

No one else can access your funds as assets are stored on a contract wallet.

Swap

Swap assets in an instant with liquidity from multiple decentralised exchanges.

Asset Management

Single user interface for all DeFi needs to avoid the hassle of huge UI learning curve.

Frequently Asked Questions

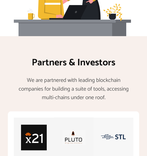
Can't find the solution to your query?
Contact us

Is Vortex available in my country?

You can access Vortex from anywhere in the world.

Who keeps the custody of assets?

How can I connect with the team?



Partners & Investors
